

# *Welcome to Community Connect*

## **Together, Building a Safer Community Through Prevention, Preparedness & Response**

We are proud to introduce our community to a new and exciting feature within our emergency response software that allows families to create their own personal household life safety profile.

The program is called **Community Connect**. It is safe and secure. To participate, simply...

- 1) Create an account - Sign in for free and get started doing your part. It just takes your email, phone number and address.
- 2) Enter the information that matters most - Enter valuable information that can help us assist more effectively during an emergency.
- 3) Help Your Fire Department when seconds count - That's it. Just keep us updated when things change overtime so we can always be prepared.

### **What kind of information can I provide?**

Any information you provide through Community Connect is completely voluntary and based on what you are comfortable sharing. We have made it easy for you to know what may be important by organizing your secure portal into buckets of information you can enter. Your property; your people; your needs and your pets.

### **How secure is my data and how is it used?**

Data that you provide Community Connect is secure and is used only for the purpose of better serving you during emergency situations. Your information is never used for any other purpose. All logins are password protected with bank level encryption and security. If you're comfortable logging into your online bank, you'll be comfortable logging in to Community Connect.

To create your account either go to: [www.communityconnect.io/info/wa-southbay](http://www.communityconnect.io/info/wa-southbay)
